MISSION

St. Anthony School is a Catholic, urban school preparing students for post-secondary education.

VISION

We believe that all children deserve an equitable and rigorous education. We develop students to be people of faith, life-long learners, effective communicators, and responsible members of the community. To ensure this, we hold staff and students to high expectations for academic success, foster engagement and joy in our classrooms, build strong relationships, and live out the values of our Catholic faith.

CHARACTERISTICS OF A ST. ANTHONY GRADUATE

A person of faith grounded in the beliefs and traditions of the Catholic Church. An effective communicator able to articulate thoughts and ideas to a wide and diverse community. A responsible member of the community engaging the world by making a positive contribution to society. A life-long learner who understands that learning is not a method but an approach to living.

DUAL ENROLLMENT

Dual Enrollment programs allow St. Anthony High School students, at the junior and senior level, to enroll in college courses while still in a high school setting. The college credits that St. Anthony students earn through this dual-enrollment experience will be used to satisfy high school graduation requirements. In order to receive the college credits for these classes students must pass with a letter grade of "C" or above. Upon completion with a "C" or above students will receive college credit through the partnering university. St. Anthony currently offers MAT503 Contemporary Applications of Mathematics as a Dual Enrollment course offered at the St. Anthony campus through University of Wisconsin - Milwaukee. Other Dual Enrollment options are available through Milwaukee Area Technical College, but students must provide their own transportation to and from this institution.

WORK STUDY PROGRAM

The Work Study Program allows students to maintain employment while earning high school credit for real-world work skills. Students admitted to this program will be allowed to end their academic school day after the 5th hour allowing the student the last part of the school day to report to a place of employment. Students will earn 0.5 credits per semester for their participation in this program. This credit will count towards the student's elective graduation requirements.

Graduating Class size:

115 (students) of 571 (total students)

Demographics:

98% Hispanic or Latino/a

1% White

1% Black or African American

0% Native Hawaiian or other Pacific Islander

0% Native American or Alaska Native

0% Middle Eastern

0% Asian
